Serial No. 10/529,249

Filed: 09/01/2005

For: Dual Site Catalyst System Comprising A Hafnocene
Component For The Production Of Bimodal
Polyolefins In A Single Reactor

DECISION ON
PETITION

This is a decision on a PETITION filed February 26, 2009 for correction of an error made when correcting an error made when electronically filing a Request for Continued Examination (RCE) Transmittal. Applicant requests that the incorrect documents be removed from the application.

DECISION

The petition is **GRANTED**.

Section 1.59 has been amended to eliminate references to returning documents that have been expunged to recognize that, with electronic Official files, there will be nothing to return when a paper is expunged.

The Office is capturing electronic images of all documents that form the Official file. Where the image is generated from a physical source document, the originating document may be disposed of once the electronic image accuracy is verified. The paper source document will eventually be destroyed under a United States National Archives and Records Administration (NARA) approved schedule. Therefore, if a document is to be expunged from the record, the only operation that will be required will be removal of the image from the Official file.

Paragraph (a)(1) of §1.59 has been amended by deleting the phrase “and returned” from the first sentence, and deleting the second sentence. Paragraph (b) of §1.59 has been amended by deleting the phrase “and return” from each of the first and second sentences. The Office will continue to provide notice in the Official file that a paper has been expunged and the Office will send a decision to the applicant notifying the applicant that the paper has been expunged.

10/529,249

The images will be removed from the Official file.
